

# CU Dialogues

Tina Geller

PhD Candidate  
Atmospheric & Oceanic Sciences, INSTAAR

## Relevant Takeaways

- ▷ Dialogue gives students an opportunity to consider how their experiences interact with class material.
- ▷ This promotes understanding.

## DEI Informed Dialogue in ATOC

- ▷ Dialogue can be added into recitations, where there is a space for small group work, or during lectures, if there are enough facilitators to break up the group.
- ▷ Dialogue can be used to:
  - ▷ connect students to class content
    - example: climate change (ATOC 1060)
  - ▷ make abstract topics more accessible
    - example: numerical modeling (ATOC 4850)
