**MASTERS OF THE  
ENVIRONMENT  
GRADUATE PROGRAM**

University of Colorado Boulder

# ABOUT THE COURSE

This clinic is designed to provide students with a:

- rigorous, hands-on, client-facing, sustainability assessment experience;
- more robust professional network;
- marketable skill set that will serve them while in the MENV program and after graduation; and
- deep understanding of the B Corp movement.

The background is a solid green color with two abstract white line art patterns. On the left, there is a grid-like pattern of intersecting lines that curves upwards and to the right. On the right side, there are several vertical, wavy lines that resemble topographical contour lines or a stylized leaf pattern.

# THE OPPORTUNITY

This capstone project includes a careful assessment of the existing syllabus and a corresponding update designed to build a more just and equitable course.
